18. THE ART OF PARAGRAPH WRITING

Ex.1 Write a paragraph of about 100 words on each of the following:

My school

A school is a temple of learning. In earlier days education was imparted in Ashrams. But these days most of the schools have large buildings to cater to different needs of the students. The name of my school is (write the name). It is situated near the (write the place). The school has forty classrooms, a library, a
computer room, a gym room and a big hall. The different activities like games, function etc., are arranged here. Our school has also a large play ground. The performance of our school in academic field as well as in different activities is praise worthy. I like my school very much.

**My Hobby**

Hobby is an activity undertaken for the sake of one’s amusement and entertainment. When we feel the stress of routine work, we want some diversion. Different people have different hobbies. Some are fond of painting, stamp collection, singing, dancing, gardening, photography while others want to spend their leisure time in undertaking tours, excursions etc. My favourite hobby is photography. I love to capture the natural beauty of the mountains. I also take part in photography competitions. I decorate my house with photographs.

**My Favourite Game**

‘All work and no play makes Jack a dull boy’. These lines amply prove that games and sports are very essential for keeping us healthy. There are two types of games played by most of the people—indoor games as well as outdoor games. People play games according to their taste and liking. Of all the games, I like Table Tennis the most. It is a very light game and people of all ages can play this game. It is very entertaining and refreshing. Moreover even after playing too much one does not get tired of playing this game.

**My Best Friend**

‘A friend in need is a friend indeed’ is an important saying. True friends are very rare these days. Generally people make friendship with those who are rich. But we should be very careful in choosing friends. A fair weather friend can deceive us any time. I have many friends but Rakesh is my best friend. He is my class fellow. His father is a doctor and his mother is a teacher. He always helps me in times of difficulty. We do homework together. He is like a member of my family. I am very proud of him.

**A Memorable Birthday Party**

A birthday party is a memorable event in one’s life. I attended a grand birthday party of my friend Mohit last Sunday. The whole house was decorated with flowers and buntings. The guests arrived and the cake cutting ceremony was performed at 8 O’clock. Photographs were taken and there was lot of dancing and singing by the youngsters. After this the dinner was served to the guests.
Everybody praised the items served to the guests. This was really a memorable party for me.

**The Picnic I Enjoyed Most**

A picnic or an excursion is meant for entertainment and refreshment. In order to avoid the monotony of routine work, we want to relax and enjoy ourselves in a calm and quiet atmosphere. I and some of my friends arranged a picnic to Kalindi Kunj, New Delhi last Sunday. We packed our lunch and started at 7 A.M. We hired a bus and reached there at 8 A.M. At first we had some programme of singing. Then we took lunch and took some rest in the lawns. In the evening, we enjoyed the beauty of the fountains and lights.

**Global Peace**

We can win the hearts of others by peace and not by war. ‘Love begets love’ is an important saying. If we have evil designs on our neighbouring countries, peace is likely to be disturbed. But policy of ‘give and take’ applies here also. Pakistan is a country hostile to India. Inspite of our best efforts, we have not been able to bring peace in the subcontinent. Sometimes, we have to be offensive to teach a lesson to our neighbour. But in a war nobody is victor. So it is essential to sort out the matters through mutual discussion. Only then global peace can be maintained.

24. THE ART OF ESSAY WRITING

**Ex.** Write an essay on Communication:

Sharing information with each other is called communication. Communication can be on a very small scale – personal communication or on a large scale – mass communication. There are many ways to communicate. Different means of personal communication include talking face to face or on telephone, and writing letters or sending e-mail messages. When communication takes place on a large scale, it is mass communication. Books, newspapers, radio, television and computer are the common means of mass communication.

The modern means of communication have dramatically changed our lives. Satellites in space bring pictures from the other side of the world, so we can watch a cricket match live, being played in any part of the world. We can telephone almost everywhere in the world. With a mobile phone we can even talk from a place without a telephone line. Computers help us to find out things in the rest of the world through the Internet and the World Wide Web. They help us send messages by e-mail, so we do not have to send letters by post.

The advent of mobile phone has worked wonders in the communication. Now we can talk to a person anywhere in the world while we are on move.

The second major problem faced by the residents is regarding paying the telephone bills. No such office has been set up in the area where telephone bills can be deposited. The telephone department must provide facilities to the residents for depositing their bill through banks.
Ex. Write an essay on Environment:
Environment plays an important part in our day to day life. Protection of the environment is the need of the hour as more and more trees are being cut by the people for their selfish ends. For maintaining ecological balance, it is also necessary to protect the wild animals as well as the forests. Our environment is being polluted every day because of deforestation. It poses a great threat to the biosphere which sustains life.

Industrialisation, technological advancement and urbanisation are the main causes for the increase in environmental pollution. Industrial and urban wastes pollute both soil and water. While factories emit toxic gases into the air, burning of combustion fuels fills up the atmosphere with carbon dioxide. The filthy water flowing out of the factories mixes with the underground water and our drinking water also becomes polluted. The loud speakers and amplifiers add a lot for creating noise pollution in the atmosphere. So it is very necessary to put a ban on loud speakers at public places.

The factories should not be allowed to be set up in the residential areas as these create all types of pollution in the atmosphere-air, water, noise etc. It is high time that the Government realises its responsibility of protecting the environment at all costs. It is also necessary for all of us to cooperate with the Government in protecting the environment for healthy living.

After that Mohan, the skipper of our team made twelve runs in one over striking three boundaries. During one hour, he hit eleven fours and two sixes. Our score was hundred and fifteen before lunch.

Then there was a sudden set back. The wickets fell one after the other like a house of cards. The whole team was dismissed for two hundred and ten. But their team also had a poor start. **MY NEIGHBOUR**

A good neighbour is a source of great joy but a bad neighbour can create havoc for us. Out of my close neighbours I like Mohan Lal the most. He is a doctor and runs his clinic at the residence itself. He has two sons and one daughter. Dr. Mohan Lal is a thorough gentleman and a very kind hearted person. He examines his patients very carefully and tries to give them the best treatment. The patients are fully satisfied with his treatment. Sometimes, he gives free medicines to the poor people. His elder son Rakesh is my class fellow and we both share our joy and sorrow together. We are so much mixed up with their family.

**FRIENDSHIP**

When two persons feel a liking for each other, their relations develop into friendship. Generally friendship develops between two persons of the same age. Friendship proves a boon for us as we can share our joys and sorrows with our friends quite freely. Who does not know the
value of a sympathetic word to a man who has fallen on evil times? Friends not only bear our sorrow, they increase our joy also. True friends are very rare these days. We should first observe the behaviour and actions of the person before making friendship with him or her. We should beware of fair-weather friends who can leave us in the lurch.

**MY HOBBY**

A hobby is a leisure time pursuit. It provides a welcome change to our daily routine work. It gives us recreation and entertainment. The choice of hobby depends upon the taste of the person. There are many kinds of hobbies cultivated by people such as reading, gardening, stamp collecting, photography, painting, singing etc.

My favourite hobby is gardening. I have an open space in the backyard of my house. I have developed it into a beautiful garden. I have planted a variety of plants in it. I water the plants everyday. I also do pruning regularly and thus weed out the wild growth. Whenever I am tired, I sit in the garden and enjoy the beauty of flowers.

**THE RADIO**

Radio is a device for sending and receiving messages through the air through electromagnetic waves. With the help of a radio set, we can listen to the different programmes like plays, commentaries, news items etc., transmitted through the radio station. In recent times, the television has become more powerful medium of information and entertainment than radio, but at the same time the benefits of radio cannot be minimized. The radio set or the mini transistor is easily portable and without any strain on our eyes, we can enjoy the different programmes on the radio set.

**THE AUTOBIOGRAPHY OF A RIVER**

I am Jamuna river. A walk by my side on a hot summer is very pleasant. It refreshes and soothes everybody. The sun rising in the east is beautifully reflected on the surface when I am flowing. Everybody can be seen taking bath in me and then offering prayer to Sun God. Children enjoy a lot when they come to me for swimming. The murmuring music created by my water fascinates the people so much that they entertain themselves by arranging picnics by my side. Some people like to enjoy boating in my water. I am always ready to hide my sufferings and provide relief to the people.

**THE SPORTS DAY IN OUR SCHOOL**

The annual sports Day of our school was celebrated with great pomp and show, on march 30. It was inaugurated by the Deputy Director of Education. Different competitions were arranged both for Seniors
